

## Cold Weather is Here!

Fellow Falcons, it seems like the cold weather came upon us fast and furious this year! We have already experienced several very cold days! With this weather comes a few friendly reminders that will help our children stay warm and safe during the winter months. It is important that they come to school prepared to go outside for a variety of reasons which include 3 outdoor recesses, DPA, outdoor learning opportunities, and possible fire drills. Their weather gear should include a coat, scarf, hat, and gloves or mittens. It is recommended that younger students also have a change of socks and a spare pair of gloves as these items most often get wet when children play in the snow.

Thank you for your support in helping to ensure our kids stay warm and healthy!
