

Boomerang Lunch Reminder

As you may recall, last year Our Lady of Fatima instituted our 'boomerang lunch' initiative. This initiative entails reducing our ecological footprint by reducing the amount of waste and recycling in our daily lunches and snacks. Our goal is to help our students become global citizens and stewards of the Earth.

Parents and guardians are reminded to pack their child's snack and lunch items in reusable containers. Sending a plastic zip-lock bag can also be used for students to return compostable and other waste back home to be placed in family compost and recycle bins in an environmentally friendly manner.

Our goal is to reduce the amount of waste that Our Lady of Fatima produces and to teach our children that it is the responsibility of all members of our global community to take care of our planet.

Thank you in advance for your continued support in helping our children understand their place in our global community.
